

# MAXIMIZE YOUR RENTAL EQUIPMENT UTILIZATION

## ACCURATE EQUIPMENT INVOICING

Are you manually processing United Rental equipment invoices today? If you are, we have some good news for you! We are excited to announce an integration between United Rentals and the TRACK Platform allowing equipment rental invoices to be validated, captured, and processed through the TRACK Platform.

### Streamlined Invoicing Process

Authorize United Rental invoices easily and efficiently right inside your own TRACK Platform. TRACK cost objects are sent to United Rentals for upfront validation when preparing their invoices. United Rental then sends their validated invoices electronically into TRACK for Acceptance and Authorization. Once authorized in TRACK, the invoice is automatically sent to the client ERP for payment.

### Manage Equipment Spend in One Place

The integration enables you to manage **more** equipment spend across your enterprise or site location within the TRACK Platform. The increased visibility of United Rental equipment will help you make better business decisions and accurately plan to optimize the usage of rental equipment.

#### UNITED RENTAL COSTS IN TRACK

Level 1	Level 2	Description	Organization	Date	Level 3	Level 4	Units	Costs
RS01-		22 UNIT WINTERIZATION	United Rentals	10/14/2019	0700		0	731.70(USD)
	<b>Material</b>						2	<b>731.70(USD)</b>
	EQUIPMENT RENTAL						2	731.70(USD)
		EQUIPMENT RENTAL FORKLIFT WHSE 5000# DIESEL					1	730.28(USD)
